Welcome to Zebritia Newsletter

Hello and Welcome to Zebritia Newsletter. I started off this Newsletter on November 24, 2024 with excitement and made a few mistakes. I have received many requests for this newsletter and I encourage you to contact me if any of you want your voice heard from my point of view.

Thank you!

Latest News

The computers I used today are x86, arm, with software that is Unix based, Microsoft Windows, Linux Distros, and Mac Os:

Q: How long have I been using Pc's?

A: I have been using Pc's software and hardware since the 80's, I was introduced to gaming console at an early age.

Q: How did I learn computers?

A: Going to school and asking questions, doing hands on typing and interactions with a mouse gave me the best experience, At home I read a lot, instruction manuals and tutorials.

—Recap

“Usually we see everyone's point of view and decide the outcome, learning computers can be challenging without the proper tools and I encourage you to speak out...”

Encouragement

I am an honest person, and I like encouragement.
